## DESCRIPCIÓN

Topaz T35-SK-LS is a premium quality ink, ideal for reliable and efficient high speed printing. The T35-SK-LS is optimised for use in Seiko® SPT 35pl and performs well on a range of other print heads, including Spectra Polaris and Konica Minolta.

This low-smell ink also offers excellent media compatibility across a broad range of self-adhesive and flexible substrates, with a high gloss finish.

The Topaz T35-SK-LS is produced in the NUTec Digital Ink advanced manufacturing facility, using the highest quality raw materials.

Provided the inks are used in regular applications, using suitable substrates, the printed images last for up to two years.
